

The Student Residential Address and Other Information Collection (the Collection) informs Australian Government school education policy and helps ensure funding for non-government schools is based on need.

The information collected will be used to inform school funding calculations. It is combined with Australian Bureau of Statistics (ABS) data to calculate a non-government school community's capacity to contribute to schooling costs.

From 2020, the department introduced a new measure of capacity to contribute: the Direct Measure of Income (DMI). The DMI is based on the median income of non-government school students' parents or guardians using the Collection data. Find more information about the DMI on the [What is the methodology for the Direct Measure of Income \(DMI\)? Department web page.](#)
